

Rubine ZENITH series sink is a documentation of pure Italian style. Its first model was conceptualized during the celebration of Salone del Gusto festival in Torino HQ. Designed with R40 bowl and linear edge, it creates a depth perception that make a functional kitchen appears spacious. To ensure exceptional quality, this sink was constructed from commercial grade AISI 304 stainless steel and it has ZERO welding that means no chance of leakage. To perfect it, all Zenith sinks are equipped with anti-noise pads and treated with protective anti-frost coating. Go ahead and host that dinner party – Your sink can handle it all!
