With Fairwater Sleeve
Cold Water can be marshalled effectively creating 20% more hot water output

Arch Analogue water heater has a contemporary design. This square-shaped water heater comes in 2 capacities – 15 litres and 30 litres. Beside the standard features in every water heater, it is also equipped with an innovative built-in Fairwater sleeve - a device that produces 20% more hot water and save more energy. Coupled with a SAPPHIRE heating element and inner tank coating, it provides hot water quickly at point of use and a 5 & 7 year warranty respectively. Fast & save, it is the best seller in its category.
